

WHOLESALE TRADE INDUSTRY TRANSFORMATION MAP

**FUTURE
ECONOMY**

Global shifts and new technologies are changing Singapore's trade landscape. The wholesale trade industry needs to adapt to create and seize new opportunities.

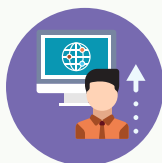

VISION

Ensure Singapore stays relevant for tomorrow's global trade, by developing a vibrant trade ecosystem comprising global & local players.

PILLARS OF TRANSFORMATION

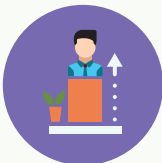

JOBS & SKILLS

Develop industry-ready talent with digital skills & international experience

Retrain, upgrade and redeploy PMETs through various schemes

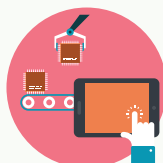

Equip graduates with relevant skills through specialised programmes

PRODUCTIVITY

Enable SMEs to access new markets and enjoy economies of scale through shared services

Reduce manual, administrative processes with digital tools and technology

INNOVATION

Build our own digital marketplaces and platforms to attract global platform players

INTERNATIONALISATION

Help SMEs connect to new opportunities through the establishment of Enterprise Singapore

Support initiatives such as the ASEAN Digital Trade Facilitation Platform and Cross Border Cognitive Supply Chain Solution
